

The DM50/55 small office franking machine comparison chart

Designed with the small office in mind

The DM50/55 Series digital franking machine with built-in scale is designed specifically for the small business or home office that sends upwards of five letters or parcels per day.

It will give you the exact postage every time, as well as providing the convenience, efficiency and savings associated with franked mail.

And don't forget from April 2010 you will save 7p on every piece of second class mail you send - and there are many more discounts available.
